

Accreditation Essentials

Education Modules

Meeting the Standards - learn about the importance of the National Safety and Quality Health Service Standards and quality clinical end-of-life care.

Clinical Change Management - clinical change begins with having a good understanding of your hospital, and the level of quality end-of-life care.

Accreditation Collaborative

The purpose of the EOLE Accreditation Collaborative is to support a community of practice in excellence in end-of-life care and partner with hospitals to share, develop and learn more about the delivery of end-of-life care in meeting the NSQHS Standards.

Toolkits

Includes action checklists and resources with links to videos and further reading to help maintain learner knowledge about end-of-life care and facilitating discussions at work.

Resources

Includes fact sheets, hospital case stories on approaches to meeting the NSQHS Standards, workshop presentations and videos.
