

# Accreditation Essentials and NSQHS Standards

The Comprehensive Care (CC) Standard relates to the delivery of comprehensive care of patients within a health service organisation.

**How End-of-Life Essentials can help your service or organisation to meet the NSQHS Standards.**

## Education modules

**Meeting the Standards** - learn about the importance of the National Safety and Quality Health Service Standards and quality clinical end-of-life care.

**Clinical Change Management** - clinical change management begins with having a good understanding of your hospital, and the level of quality end-of-life care.

## Toolkits

Includes action checklists and resources with links to videos and further reading to help maintain learner knowledge about end-of-life care and facilitating discussions at work.

## Accreditation Collaborative

EOLE partners with hospitals to share, develop and learn more about the delivery of end-of-life care in meeting the NSQHS Standards.

## Resources

Includes Hospital Care Stories providing examples of other hospitals' approaches to meeting the NSQHS Standards. Videos and powerpoint presentations addressing the end-of-life care actions from the Comprehensive Care (CC) Standard.

## Facts sheets

Fact sheets on each of the six end-of life care actions as part of the CC Standards which requires health services to have systems and processes for caring for patient at the end of their lives, and for clinicians to use those systems and processes.
